MUHAMMAD ASAD

Senior Frontend & React Native Developer · TypeScript Specialist · AI-Augmented Engineer
Dubai, UAE | +971 55 124 5583 | asadnadeem005@gmail.com
LinkedIn: Muhammad Asad | Portfolio: muhammad-asad.vercel.app | Valid UAE Driving License

PROFESSIONAL SUMMARY

Senior Frontend & React Native Developer with 5+ years of experience delivering high-performance cross-platform mobile apps (iOS & Android) and modern web interfaces using React Native, React.js, Next.js, and TypeScript. Expert in React hooks, component architecture, and state management. Proficient in AI-augmented workflows — leveraging Claude AI, ChatGPT, Cursor AI, and GitHub Copilot to accelerate delivery, generate components, and improve code quality. Dubai-based, immediate joiner.

TECHNICAL SKILLS

React Native	React Native CLI, Expo, TypeScript, React Navigation, Reanimated 2, Gesture Handler, NFC, FCM Push Notifications, Deep Linking, AsyncStorage, MMKV
Frontend	React.js, Next.js, TypeScript, JavaScript (ES2022+), React Hooks, Context API, Redux Toolkit, React Query / TanStack Query, Zustand
UI & Styling	Tailwind CSS, Material UI, Ant Design, Framer Motion, Three.js, Styled Components, Responsive Design
Mobile Tools	Android Studio, Xcode, Visual Studio Code, TestFlight, App Store Connect, Google Play Console, Flipper
AI Dev Tools	Claude AI, ChatGPT, Cursor AI, GitHub Copilot, Prompt Engineering, AI Code Generation, LLM Workflows
AI Integration	OpenAI API, Generative UI, AI-Powered Recommendations, LLM API Integration, Automated Content Gen
DevOps & APIs	REST APIs, WebSockets, GraphQL, Docker, AWS S3, CI/CD Pipelines, Git, Bitbucket

PROFESSIONAL EXPERIENCE

Senior Frontend & React Native Developer | **Softbuilders Software Design LLC** *May 2024 – Present · Dubai, UAE*

- Shipped multiple production React Native apps (iOS & Android) on App Store and Play Store for UAE enterprise clients — featuring NFC flows, animated wallets, and real-time WebSocket screens.
- Built React.js and Next.js web UIs with TypeScript and React Query, cutting frontend server requests by 40% via intelligent caching and state optimization.
- Used Claude AI and Cursor AI for AI-assisted component scaffolding and prompt-engineered UI generation, reducing feature development time by 30%.
- Delivered multi-language (i18n), accessibility compliance, and 60fps animations using Reanimated 2 across all mobile and web platforms.

Frontend Engineer | **ConsoliAds Pte Ltd** *Nov 2022 – Mar 2024 · Lahore, Pakistan*

- Built scalable frontend interfaces using React.js, TypeScript, and Redux Toolkit for platforms serving 1M+ active users.
- Increased user engagement by 20% through AI-informed recommendation UI and personalized referral system components.
- Integrated REST APIs, third-party SDKs, and webhook-driven UI updates ensuring seamless real-time data rendering.

Junior Frontend Developer | **DevsSpace Ltd** *Feb 2022 – Nov 2022 · Lahore, Pakistan*

- Developed responsive React.js web interfaces and mobile UI components, improving frontend rendering performance by 15%.
- Awarded Team of the Month for delivering UI features ahead of schedule in an Agile environment.

KEY PROJECTS

Motifino — VIP Membership & Rewards App (React Native)

Tech Stack: React Native · TypeScript · Reanimated 2 · WebSockets · Shopify API · NFC · AWS S3

- Built cross-platform mobile app (iOS & Android) with NFC card activation, animated digital wallet, and gamified spin wheel — using Claude AI for AI-assisted component generation.
- Implemented real-time WebSocket notifications, multi-language UI, and Shopify-integrated reward flows with smooth Reanimated 2 transitions.

Mai HRMS — AI-Powered HR Platform (iOS, Android & Web)

Tech Stack: React Native · React.js · TypeScript · WebSockets · Redux Toolkit · React Query | App Store & Play Store

- Delivered dual-platform HRMS (React Native mobile + React.js web) with role-based dashboards, real-time attendance UI, and LLM-powered automated activity summaries.
- Implemented AI workflow automation on the frontend — intelligent data presentation and real-time WebSocket-driven payroll and leave management screens.

Kabutus — AI Brand & Creative Automation Platform

Tech Stack: Next.js · TypeScript · OpenAI API · Framer Motion · Tailwind CSS

- Built AI-powered creative platform integrating OpenAI API for generative logo, image ad, and video ad workflows — with natural language prompt pipelines and real-time visual previews.
- Engineered browser-based video editor UI and AI-driven brand generation flows using Next.js, TypeScript, and Framer Motion.

Lit Dating App — Real-Time Mobile Platform (100K+ Downloads)

Tech Stack: React Native · TypeScript · WebSockets · Redux Toolkit

- Delivered mobile UI for a 100K+ download platform — AI-powered matchmaking feed, real-time chat screens, and smooth profile animations driving 25% uplift in user engagement.

CERTIFICATIONS & EDUCATION

Professional Scrum Master (PSM I) — Scrum.org

Bachelor of Computer Science (BSCS)
University of Sargodha, Pakistan · 2017 – 2021
